

MEDICAL DEVICES LINE FOR GASTROESOPHAGEAL REFLUX DISEASE (**GERD**) TREATMENT

Medical Device CE

MADE IN ITALY

GERD MEDICAL DEVICES LINE

Medical devices useful in the symptomatic treatment of all those states linked to gastroesophageal reflux disease. Each product has a formulation that provides a targeted action for specific phases of the disease and specific type of patients

COMMON THERAPEUTIC INDICATIONS

- Gastroesophageal reflux disease (GERD)
- Esophagitis
- Heartburn
- Reflux coughing
- Abdominal pain

REGULATORY STATUS

Medical Device class IIA

GASTUSEN

ON-THE-GO ORAL GEL FOR THE TREATMENT OF OCCASIONAL MILD GERD SYMPTOMS

DESCRIPTION

GASTUSEN is an oral gel based on low molecular weight Hyaluronic Acid, Magnesium Alginate and Myrrh extract. It is useful for those patients that occasionally suffer symptoms linked to the gastroesophageal reflux disease and that need a practical support in the everyday life.

DOSAGE

It is recommended the intake of 1 stick pack per day

PRESENTATION

Oral gel in stick pack sachets of 15 ml each.
Available in 12 or 24 stick pack boxes

INGREDIENTS

Low molecular weight Hyaluronic Acid Sodium Salt, Magnesium Alginate, Mhyrr d.e. tit. 30% Polysaccharides, Guar Seeds Flour, Arabic Gum, Xanthan Gum

Treatment of MILD GERD
For patients who experience mild symptoms once or twice a month

READY TO USE
practical oral administration even away from home

BARRIER EFFECT on the Gastroesophageal Tract Forms a protective film on gastrointestinal mucosa against the action of gastric acid

HYALURONIC ACID supports the process of reconstruction of the damaged epithelium
MYRRH EXTRACT soothes the laryngeal mucous membranes inflamed

NO SIDE EFFECTS in hypertensive or nephropathic patients

MADE IN ITALY

GASTUFLUX

ORAL GEL FOR THE TREATMENT OF MILD GERD SYMPTOMS, AS WELL IN CHILDREN

DESCRIPTION

GASTUFLUX is an oral gel based on Magnesium Alginate and Simethicone. It is useful for those patients that occasionally suffer symptoms linked to the gastroesophageal reflux disease and need a fast and long-lasting relief.

It contains **Simethicone**, which reduces the surface tension of the gases present in the gastric liquid, thus favoring their elimination.

DOSAGE

It is recommended to administer 15 ml/day of solution.

PRESENTATION

Oral gel in bottle + reducer adapter for syringe + dosing syringe - Available 210 ml or 300 ml size

INGREDIENTS

Magnesium Alginate, Simethicone, Xanthan Gum, Guar Seeds Flour, Arabic Gum

Treatment of MILD GERD
For patients who experience mild symptoms once or twice a month

BARRIER EFFECT on the Gastroesophageal Tract
Forms a protective film on gastrointestinal mucosa against the action of gastric acid

NO SIDE EFFECTS in hypertensive or nephropathic patients

SIMETHICONE targeted action against Reflux Gas

MADE IN ITALY

GASTUCALM

ORAL GEL FOR THE TREATMENT OF MILD GERD SYMPTOMS

DESCRIPTION

GASTUCALM is an oral gel based on Sodium Alginate, Sodium Bicarbonate and Calcium Carbonate. It is useful for those patients that occasionally suffer symptoms linked to the gastroesophageal reflux disease and need a fast and long-lasting relief.

It contains Sodium alginate, which creates a viscous barrier capable of preventing the contents of the stomach from rising towards the esophagus.

DOSAGE

It is recommended to administer 15 ml/day of solution.

PRESENTATION

Oral gel in bottle + reducer adapter for syringe + dosing syringe + measuring spoon
Available 210 ml or 300 ml size

INGREDIENTS

Sodium Alginate, Sodium Bicarbonate, Calcium Carbonate, Arabic Gum, Xanthan Gum

*Treatment of MILD GERD
For patients who experience mild symptoms once or twice a month*

*BARRIER EFFECT on the Gastroesophageal Tract
Forms a protective film on gastrointestinal mucosa against the action of gastric acid*

*SODIUM ALGINATE targeted action
Exercises a mechanic block of gastroesophageal reflux*

SUITABLE FOR CHILDREN

GASTUSEN PLUS

ON-THE-GO ORAL GEL FOR THE TREATMENT OF MODERATE CHRONICAL GERD SYMPTOMS

DESCRIPTION

GASTUSEN PLUS is an oral gel based on low molecular weight Hyaluronic Acid, Magnesium Alginate and Myrrh extract. It is useful for those patients that chronically suffer symptoms linked to the gastroesophageal reflux disease and that need a practical support in the everyday life.

DOSAGE

It is recommended the intake of 1 stick pack per day

PRESENTATION

Oral gel in stick pack sachets of 15 ml each. Available in 12 or 24 stick pack boxes

INGREDIENTS

Low molecular weight Hyaluronic Acid Sodium Salt, Magnesium Alginate, Mhyrr d.e. tit. 30% Polysaccharides, Guar Seeds Flour, Arabic Gum, Xanthan Gum

Treatment of MODERATE GERD
Patients experience more frequent symptoms requiring daily administration

READY TO USE
practical oral administration even away from home

BARRIER EFFECT on the Gastroesophageal Tract Forms a protective film on gastrointestinal mucosa against the action of gastric acid

HYALURONIC ACID supports the process of reconstruction of the damaged epithelium
MYRRH EXTRACT soothes the laryngeal mucous membranes inflamed

NO SIDE EFFECTS in hypertensive or nephropathic patients

MADE IN ITALY

GASTUCALM PLUS

ORAL GEL FOR THE TREATMENT OF SEVERE GERD SYMPTOMS

DESCRIPTION

GASTUCALM PLUS is an oral gel based on Hyaluronic Acid Sodium Salt, Magnesium Alginate, Sodium Alginate, Simethicone and Mhyrr extract.

It is useful for those patients that chronically suffer symptoms linked to the gastroesophageal reflux disease and need an long-lasting relieve. It contains Hyaluronic Acid, which hydrates and protects the mucous membranes of the gastroesophageal tract and supports the process of reconstruction of the damaged epithelium.

DOSAGE

It is recommended to administer 15 ml/day of solution.

PRESENTATION

Oral gel in bottle + reducer adapter for syringe + dosing syringe - Available 210 ml or 300 ml size

INGREDIENTS

Low molecular weight Hyaluronic acid Sodium Salt, Magnesium Alginate, Sodium Alginate, Simethicone, Mhyrr d.e. tit. 30% Polysaccharides, Arabic Gum, Xanthan Gum, Guar Seeds Flour

Treatment of SEVERE GERD
Patients whose quality of life is compromised by GERD, that have poorly controlled symptoms and are more likely to have erosive esophageal inflammation.

BARRIER EFFECT on the Gastroesophageal Tract
Forms a protective film on gastrointestinal mucosa against the action of gastric acid

HYALURONIC ACID supports the process of reconstruction of the damaged epithelium
MYRRH EXTRACT soothes the laryngeal mucous membranes inflamed

SIMETHICONE targeted action against Reflux Gas

MADE IN ITALY

GASTIROM MAG

ON-THE-GO PREMIUM PRODUCT FOR THE TREATMENT OF SEVERE GERD SYMPTOMS

DESCRIPTION

GASTIROM MAG is an oral emulsion based on low molecular weight Hyaluronic Acid, Magnesium Alginate, Myrrh extract and Simethicone. It is useful for those patients that chronically suffer symptoms linked to the gastroesophageal reflux disease and need an extra-strong long-lasting relief, along with a practical use for everyday life.

DOSAGE

It is recommended the intake of 1 stick pack per day

PRESENTATION

Oral gel in stick pack sachets of 15 ml each. Available in 12 or 24 stick pack boxes

INGREDIENTS

Low molecular weight Hyaluronic Acid Sodium Salt, Magnesium Alginate, Mhyrr d.e. tit. 30% Polysaccharides, Arabic Gum, Xanthan Gum, Guar Seeds Flour, Silicon Dioxide, Tocopherol, Simethicone

Treatment of SEVERE GERD
Patients whose quality of life is compromised by GERD, that have poorly controlled symptoms and are more likely to have erosive esophageal inflammation.

READY TO USE
practical oral administration even away from home

BARRIER EFFECT on the Gastroesophageal Tract
Forms a protective film on gastrointestinal mucosa against the action of gastric acid

HYALURONIC ACID supports the process of reconstruction of the damaged epithelium
MYRRH EXTRACT soothes the laryngeal mucous membranes inflamed

SIMETHICONE targeted action against Reflux Gas

NO SIDE EFFECTS in hypertensive or nephropathic patients

INNOVATIVE Emulsion form that provides a high compliance of the product
